- fundraiser event for charity

ANY ADDITIONAL DATES WILL BE EMAILED TO YOU

Home Learning:

Home learning will continue this half term. which will include challenges around our 3 value statements, topic activities and ideas to support their maths and writing. These aim to be 'relaxing and fun' so that you do not have additional pressures in your very busy lives. Reading Eggs will continue to be available and your child is encouraged to create their own projects about our topic to share at school.

Show Respect. Learn Together.
Try Your Best.

Please email Enquiries@Braddan.sch.im if you have any questions or wish to discuss your child's learning or wellbeing.

Topic:

Over this half term we will be learning about Space. The children have decided which areas of Space they would like to learn about, such as

- What are stars?
- How can you become an Astronaut?
- Whats in our Solar system?

Literacy:

Our focus book this term is 'How to catch a Star'. The writing skills we will be covering this term include:

- Adjectives
- Expanded noun phrases
- Setting descriptions

Numeracy:

The first two weeks of this term we will be focusing on Money (notes, pounds and pence). Afterwards, we will be moving on to Multiplication and Division. It would be fantastic if your child could begin learning their 2s, 5s, and 10 Timestables as this will massively help.

At Braddan School, we know that children learn best through play and enjoyment. We ask that you support their reading through listening to them daily.

Please email Enquiries@Braddan.sch.im if you have any questions or wish to discuss your child's learning or wellbeing.
