## SNACK

- Pupils can bring in a snack of either fruit or vegetables.

**NO NUTS OR NUT BASED PRODUCTS**

## HOME LEARNING

All home learning assignments will be set on Microsoft Teams. Your child has accessed this in class and is able to log in independently.

Please also ensure your child reads regularly at home.

# LITERACY

Reading skills extend beyond reading fluency and our key focus is on being able to understand and discuss a text in depth. In guided reading sessions and as part of our class learning in literacy, we explore a range of text types to support us develop these key skills.

This half term we will be moving away from non-fiction writing and looking at writing to engage a reader. We will be broadening our vocabulary to help us enrich our story telling.

Listening to audiobooks is a fantastic way for your child to access quality texts. You can find a range of audiobooks on YouTube for free or on [Audible](#)

# MATHS

This half term we will be developing our understanding of fractions, decimals and percentages.

It is so important to encourage the learning of key maths skills at home, as this helps support your child in accessing their maths learning in class. This includes recall of times tables, number bonds and telling the time. There are lots of online resources to support your learning at home. Check out the below link:

[Maths at Home](#)

# TOPIC

We will continue our topic this term of 'Frozen Kingdoms'. We have really enjoyed our learning on this topic so far, especially learning all about Mount Everest. We will be exploring a variety of mountain ranges across the world and how mountains are formed over time. We will also be learning about different communities in these colder regions.

In art we are learning about the artistic style of pointillism and using this style to create artwork linked to our topic.

[All about Georges Seurat - a famous pointillist artist](#)
