MSR Afterschool Club	Every Tuesday after school
Football Club (5s & 6s)	Every Thursday after school
Last day of School	29/05/25

LITERACY

Reading skills extend beyond reading fluency and our key focus is on being able to understand and discuss a text in depth. In guided reading sessions and as part of our class learning in literacy, we explore a range of text types to support us develop these key skills.

This half term we will be moving away from non-fiction writing and looking at writing to engage a reader. We will be broadening our vocabulary to help us enrich our story telling. Our focus will be adventure story writing.

Listening to audiobooks is a fantastic way for your child to access quality texts. You can find a range of audiobooks on YouTube for free or on [Audible](#)

MATHS

This half term we will be developing our understanding of fractions, decimals and percentages; area and perimeter and consolidating key maths concepts.

It is so important to encourage the learning of key maths skills at home, as this helps support your child in accessing their maths learning in class. This includes recall of times tables, number bonds and telling the time. There are lots of online resources to support your learning at home. Check out the below link:

[Maths at Home](#)

TOPIC

Our topic this half term is about our local area. Mrs Trimble will be exploring Manx history and culture.

In Geography we will be looking at the geographical features of the Isle of Man, including looking at Manx mountain, rivers and coastal features.

In science we will be looking at what helps keep us fit and healthy. We will explore the importance of a balanced diet and regular exercise. We will also start to think about things that could be potentially harmful to our bodies i.e. unhealthy lifestyle choices.
