

WOLF SPIDERS

MRS KELLY & MRS TRIMBLE

TOPIC

Our topic this half term is 'Amazing Me'. We will be celebrating who we are, what makes us different and, as part of our RSE curriculum, what it means to be getting growing up and looking to the future. Please see the letter sent to parents around relationships and sex education for further clarification around this.

We have started our preparations for the year 6 leavers assembly. Please could you send a baby or toddler photo to the school office to support us with something we have prepared.

LITERACY

Reading at home is really important. It not only helps children maintain their reading fluency but also supports vocabulary acquisition and develops their ideas and understanding of writing composition. Children will continue to participate in regular guided reading sessions and read for pleasure daily in class.

We will continue to explore adventure story writing in literacy this half term. We have been working really hard at developing our vocabulary and understanding of how to structure an effective piece of writing with the reader in mind.

MATHS

Thinking ahead to getting us ready for high school maths, this half term we will continue to consolidate key maths skills.

A good grasp of basic maths skills such as addition and subtraction, multiplication and division methods and times table facts, is really vital in helping pupils access trickier maths concepts. Our main learning focus will be shape, angles and statistics.
